## A.M.G. VENOL BENZINE ADDITIVE

BENZINE ADDITIVE designed for all cars equipped with gasoline engines. It increases the fuel octane number and improves the combustion processes. It is very efficient at removing contaminations from the fuel system and prevents accumulation of residues on feed system elements and in combustion chamber.

## A.M.G. VENOL DIESEL ADDITIVE

DIESEL ADDITIVE designed for all types of diesel oil. It indicates high stability in a wide range of operating temperatures. Contains highly active cleaning agents, prevents the formation of deposits in the system, and allows to clean dirty injectors. Regular use prevents injector damage.

## A.M.G. VENOL OCTANE BOOSTER

OCTANE BOOSTER is an additive that increases the fuel octane number and improves the combustion processes. It indicates high stability over a wide range of temperatures. It enhances torque and the cleanliness of the fuel system.

## A.M.G. VENOL CETANE BOOSTER

CETANE BOOSTER designed for all cars equipped with diesel engines. It increases the fuel cetane number and improves the combustion processes. It shows high stability in a wide range of temperatures. It enhances performance, and reduces fuel consumption. It can be used with all types of diesel oils.

# CAR CHEMISTRY

## A.M.G. VENOL ENGINE SEAL

Engine oil additive, designed for all types of diesel and gasoline engines. It effectively reduces oil leakage, seals dry gaskets by restoring their elasticity and reduces friction between engine parts.

## A.M.G. VENOL INJECTION CLEANER BENZINE

INJECTION CLEANER BENZINE is a mixture of substances that improve the performance and running smoothness of modern gasoline engines. It effectively lubricates engine components, preventing damage, malfunctions, and deposit formation. It shows high stability in a wide range of temperatures. It can be used with all types of gasoline.

## A.M.G. VENOL INJECTION CLEANER DIESEL

INJECTION CLEANER is a mixture of substances that improve the performance and running smoothness of modern common rail diesel engines. Perfectly lubricates injectors preventing damage and failures. Prevents sediment deposition in the common rail system. It shows high stability in a wide range of temperatures. It can be used with all types of diesel oil.

## A.M.G. VENOL DPF CAT CLEANER

Particulate filter cleaner. It can be used in all kinds of vehicles equipped with diesel engines with a DPF/CAT system. It guarantees decrease the combustion temperature of the accumulating soot, what helps to unclog the filter. It's regular use extends the periods between filter regeneration cycles.

# CAR CHEMISTRY

## A.M.G. VENOL FRICTION REDUCTOR

FRICTION REDUCTOR - a preparation designed for use in both gasoline and diesel engines, with or without particulate filters. It reduces friction and creates a protective layer on cooperating metal components in the engine, which lasts up to 50,000 km. It protects against dry starts, acidic substances, and carbon deposits. It ensures long-term engine protection and reduces fuel consumption. Compatible with all engine oils available on the market.

## A.M.G. VENOL ENGINE FLUSH

ENGINE FLUSH is a top-quality product designed for flushing the interior of gasoline engines, with excellent cleaning properties. It works immediately after application, effectively dissolving even the oldest carbon deposits and other impurities of the lubrication system. It is completely safe for all engine components and seals. It extends the service life and prevents piston rings from clogging.

## A.M.G. VENOL RADIATOR LEAK STOP

The Stop Leak Radiator is a high-quality water pad designed for the temporary installation of a setup. It works quickly and effectively on the radiator, heater, head gasket, hoses and plugs in the car engine, preventing damage that occurs in the ignition system and overheating.

## A.M.G. VENOL RADIATOR FLUSH

RADIATOR FLUSH is a top-quality product designed for cleaning the engine cooling system. It has excellent cleaning properties and works immediately after use. It removes effectively scale and other impurities in the cooler.

# CAR CHEMISTRY

## A.M.G. VENOL BRAKE CLEANER SPRAY

BRAKE CLEANER SPRAY is a high performance and an effective preparation designed for cleaning, washing and degreasing the metal parts of the brake system. Effectively removes contaminants in the form of oils, tarnish and grease. It evaporates quickly and is neutral to metal.

## A.M.G. VENOL GLASS CLEANER

Glass cleaner liquid developed with use of a modern SUPER ACTIVE technology. It is destined for cleaning all kinds of surfaces of glass including windshields, windows and mirrors and also for all shiny glazes, bathroom fittings and aluminium. It effectively degreases cleaned surfaces and does not leave any reflections and streaks.

## A.M.G. VENOL WINDOW DE-ICER

WINDOW DE-ICER effectively removes frost and ice from car windows. It prevents re-icing of windows. The de icer can also be used for frozen locks in the car's door. It is safe for paint, chrome and rubber. It is safe for the environment.

## A.M.G. VENOL INSECT REMOVER

The liquid for removing insects safely and effectively eliminates all traces of insects, dirt and other road dirt from the car body, windows, headlights, and mirrors. It is safe for paint, plastic, chrome and rubber.

# CAR CHEMISTRY

## A.M.G. VENOL TAR REMOVER

TAR REMOVER is a fully professional agent for removing asphalt, tar and resin stains from car paint during car exploitation. The preparation exhibits excellent cleaning properties.

## A.M.G. VENOL TEXTILE CLEANER

Upholstery cleaner is an effective solution for cleaning upholstery, carpets, and plastics. It penetrates the structure of dirt, thoroughly cleans even the most persistent stains, and restores the natural color of the cleaned surfaces. Dispose of the empty packaging in a designated waste collection area.

## A.M.G. VENOL LEATHER CLEANER

The liquid for cleaning the leather developed on the basis of modern technology, perfectly cleans and cares for products made of natural and artificial leather. It can be used for cleaning and care of car upholstery, furniture, leather clothing, bags or shoes. It impregnates the leather, protecting it against moisture and UV radiation. It does not cause discoloration. Suitable for all skin colors.

## A.M.G. VENOL WHEEL CLEANER

Fluid for cleaning rims developed on the basis of modern technology, effectively cleanse and care for steel and aluminum rims, as well as other elements made of aluminum. Special designed formula gives the cleaned surfaces intense shine and leaves a protective layer to protect against corrosion. It is safe for tires.

# CAR CHEMISTRY

## A.M.G. VENOL MOTOR CLEANER

The engine washing liquid effectively degreases and removes all dirt (oil, grease, asphalt, atmospheric pollution, etc.) from the surface of the engine and its components. The regular use reduces mechanical wear of individual engine components. It protects against corrosion. It is safe for the environment.

## A.M.G. VENOL PLANKE SUPER COCKPIT

Preparation is designed for the care of the dashboards, upholstery of artificial leather and plastic components. It is also suitable for furniture cleaning. It leaves gloss, deepens and brings out the natural colour. With anti-static additives to prevent dust build-up. Available scents: lemon, vanilla, lavender.

## A.M.G. VENOL VD 60

Penetrating lubricant. It facilitates to take apart the baked threaded connections. It can be used for lubricating locks. It protects metal parts against corrosion and adverse weather conditions. It facilitates drying and removing water from metal parts and electrical connections.

GERMAN TECHNOLOGY

## CORE BUSINESS

The company deals with activities related to production of high quality lubricating oils for various applications in the automotive and industrial sectors as well as high-quality operating fluids and car care agents. The company's domain is production of the highest quality motor oils of the Active Power group, which is a series of technologically advanced products and raw materials allowing to achieve the highest power with the lowest possible fuel consumption. All products are made of the best components available on the market. For this purpose, we cooperate with such entities as: Afton, Infineum, Chevron, Exxon, Evonik. Currently, products under the VENOL brand are sold in over 70 countries around the world. Recent years in the company's activity are very intense and focused on dynamic development. The company's goal is to implement innovative product solutions and strengthen the export potential of the company.

The high quality of the business is confirmed by the award and maintenance of the Quality Management Systems certificates.

A quality assurance system has been in operation since 2000 in accordance with ISO 9001: 2015, certified by the IMQ CSQ. The dynamic changes on the lubricant market led to cooperation in the field of technology and research with the research and development centres and Universities in Germany. We cooperate with leading manufacturers of combustion engines, which is confirmed by technical approvals. We ensure that we do everything to provide the best products to meet the needs of customers.

## VISION AND OBJECTIVES OF THE COMPANY

CARE FOR GOOD RELATIONS WITH CUSTOMERS AND THEIR SATISFACTION

THE QUALITY MANAGEMENT SYSTEMS CERTIFICATES

QUALIFIED AND EXPERIENCED PERSONNEL GUARANTEES HIGH-QUALITY PRODUCTION

CONTINUOUS SEARCH FOR NEW PRODUCT SOLUTIONS

HIGHLY COMPETITIVE POSITION ON THE MOTOR OIL MARKET
