Venol Motor Oil is a brand that draws extensively from over 20 years of experience across 85 markets worldwide. By combining proven German manufacturing technology with an excellent price-to-quality ratio, Venol delivers outstanding engine oils for various automotive and industrial applications, along with high-quality operating fluids and car care chemicals. Our team consists of experienced professionals who work with passion every day to deliver products that exceed customer expectations.

Venol – Experience and Passion.

HOW TO FIX ENGINE FAULTS ?

A M G VENOL INJECTION CLEANER GASOLINE

VENOL INJECTION CLEANER GASOLINE is a product designed for effective cleaning of fuel injection systems in gasoline engines. Clean injectors improve fuel atomization, which leads to reduced fuel consumption, less exhaust smoke, and quieter engine operation. Regular use extends engine life. The product is suitable for engines with both port and direct fuel injection systems.

A.M.G. VENOL INJECTION CLEANER DIESEL

VENOL INJECTION CLEANER DIESEL is a high-quality product designed for effective cleaning of fuel injection systems in diesel engines. It safely removes carbon deposits from injector nozzles, improving fuel atomization and combustion conditions. Regular use reduces fuel consumption, limits smoke emissions, quiets engine operation, and prolongs the lifespan of the injection system. The product is suitable for all types of injection systems: injection pumps, unit injectors, and Common Rail injectors.

A.M.G. VENOL ENGINE SEAL

VENOL ENGINE SEAL is an engine-oil additive that rejuvenates rubber seals, effectively reducing oil leaks and preventing oil consumption caused by leaking valve stem seals.

A.M.G. VENOL DPF BOOSTER

VENOL DPF BOOSTER is a fuel additive designed to clean diesel particulate filters (DPF) in diesel engines. It can be used in all vehicles equipped with a diesel engine and an installed DPF. The product lowers the combustion temperature of accumulated soot, facilitating the regeneration of the filter. Regular use, approximately every 5,000 kilometers, extends the time between filter regeneration cycles and reduces oil dilution by fuel.

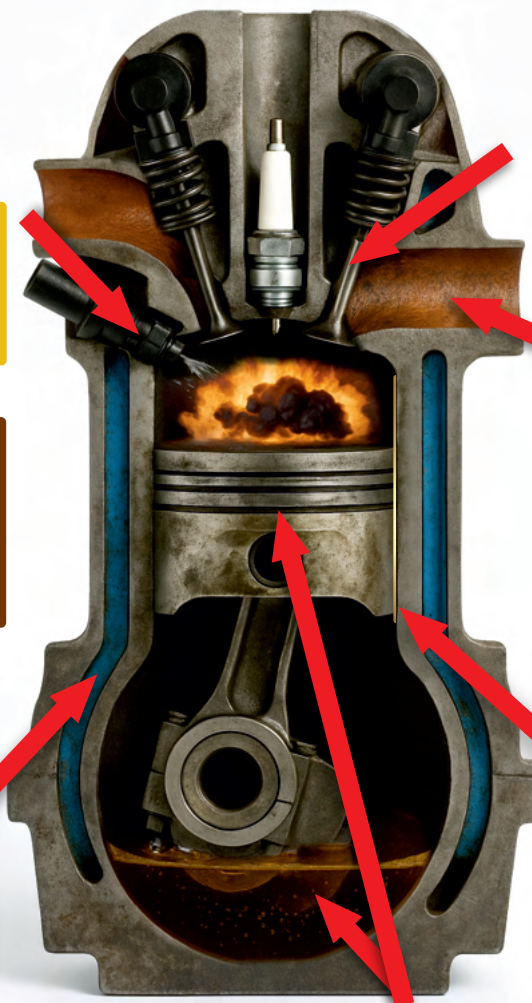

A M G VENOL RADIATOR FLUSH

VENOL RADIATOR FLUSH is a high-performance cleaner specifically formulated to remove oil residues and limescale deposits from an engine's coolant system. Flushing the system improves both engine cooling and vehicle cabin heating efficiency.

A.M.G. VENOL RADIATOR LEAK STOP

VENOL RADIATOR LEAK STOP is a coolant-system additive designed to seal leaks in the radiator, heater core, and coolant hoses. The product reacts with air to form a durable sealing layer. It won't contaminate the coolant or reduce the system's efficiency.

A.M.G. VENOL ENGINE FLUSH

VENOL ENGINE FLUSH is an engine interior cleaning additive used before an oil change. It acts immediately upon application. The product flushes carbon deposits and sludge from oil channels, hydraulic lifters, the oil pan, and piston rings. Engine flushing improves compression and reduces oil consumption. The additive should be used before every engine oil change. It is suitable for all gasoline and diesel engines.

A.M.G. VENOL FRICTION REDUCER

VENOL FRICTION REDUCER is an engine oil additive designed to reduce friction. It is intended for use in all gasoline and diesel engines, both with and without a diesel particulate filter (DPF). The product has a dual action: it forms a durable (50,000 km) ceramic coating and an active chemical layer. The base of the product is a specially formulated mixture of boron nitride and organic molybdenum. The additive protects the engine against dry starts, reduces friction, and extends the engine's lifespan. It can be used with any engine oil.

ADDITIVES FOR FUELS, OILS, AND RADIATORS

A.M.G. VENOL SPEED BOOSTER BENZIN

Universal gasoline enhancer. The product increases fuel combustion efficiency and cleans the injection system. Regular use extends the lifespan of the injection system.

Item No.	Cap.	Pcs in package
711.250	250ml	25

A.M.G. VENOL SPEED BOOSTER DIESEL

Universal Diesel Enhancer. Improves fuel combustion efficiency and cleans the injection system. Regular use extends the lifespan of the fuel injection system.

Item No.	Cap.	Pcs in package
710.250	250ml	25

A.M.G. VENOL OCTANE BOOSTER

The product increases the octane rating of gasoline and ensures that the engine can reach its full performance potential. Raising the octane number is essential for engines with modified injection and ignition maps, or with mechanical upgrades such as increased boost pressure or compression ratio.

Item No.	Cap.	Pcs in package
636.250	250ml	25

A.M.G. VENOL CETAN BOOSTER

A formula that increases the cetane number of diesel fuel. Improving this parameter enhances engine performance, reduces fuel consumption, and results in quieter operation.

Item No.	Cap.	Pcs in package
638.250	250ml	25

A.M.G. VENOL INJECTION CLEANER BENZIN

Cleans and lubricates the entire petrol injection system. Clean injectors improve fuel atomization, resulting in lower fuel consumption, reduced exhaust smoke, and quieter engine operation. Regular use helps extend engine life. Suitable for engines with both port fuel injection (PFI) and direct fuel injection (GDI) systems.

Item No.	Cap.	Pcs in package
644.250	250ml	25

A.M.G. VENOL INJECTION CLEANER DIESEL

A highly effective formula for cleaning injection systems in diesel engines. It removes carbon deposits from injector nozzles, improving fuel atomization and combustion conditions. Regular use reduces fuel consumption, lowers exhaust smoke, quiets engine operation, and extends the life of the injection system. Suitable for all types of diesel injection systems, including injection pumps, unit injectors, and Common Rail systems.

Item No.	Cap.	Pcs in package
635.250	250ml	25

A.M.G. VENOL DPF BOOSTER

Designed for cleaning particulate filters in all diesel vehicles equipped with both dry and wet DPF systems. The product lowers the soot combustion temperature, which helps to unclog the filter. Regular use every approximately 5,000 kilometers extends the intervals between filter regeneration cycles and reduces oil dilution by fuel.

Item No.	Cap.	Pcs in package
712.250	250ml	25

A.M.G. VENOL ENGINE FLUSH

A product for flushing the engine interior before an oil change. Works immediately upon application. The formula removes carbon deposits and sludge from oil channels, hydraulic lifters, the oil pan, and piston rings. Flushing the engine improves compression and reduces oil consumption. Use before every engine oil change. Suitable for all gasoline and diesel engines.

Item No.	Cap.	Pcs in package
701.250	250ml	25

A.M.G. VENOL FRICTION REDUCER

Engine Oil Additive for Friction Reduction. This product is designed for use in all gasoline and diesel engines, with or without particulate filters. It offers dual action by creating a durable ceramic coating lasting up to 50,000 km, along with an active chemical layer. The formula is based on a specially composed blend of boron nitride and organic molybdenum. The additive protects the engine from dry starts, reduces friction, and extends engine life. Compatible with all types of engine oils.

Item No.	Cap.	Pcs in package
643.250	250ml	25

A.M.G. VENOL ENGINE SEAL

Engine Oil Additive. Restores rubber seals, effectively reducing leaks and oil consumption caused by valve stem seals.

Item No.	Cap.	Pcs in package
639.250	250ml	25

A.M.G. VENOL RADIATOR FLUSH

A product for removing oil deposits and scale from the engine cooling system. Flushing improves the efficiency of the cooling system and the vehicle's interior heating. Use before every coolant change.

Item No.	Cap.	Pcs in package
637.250	250ml	25

A.M.G. VENOL RADIATOR LEAK STOP

This product seals leaks in the radiator, heater core, and hoses. It reacts with air to form a durable sealing layer. The product does not dirty the coolant or reduce the cooling system's efficiency.

Item No.	Cap.	Pcs in package
642.250	250ml	25

OILS A.M.G. VENOL

Engine oils for passenger cars

A.M.G. VENOL FULLY SYNTHETIC LONG LIFE SP 0W-16

Fuel-efficient, fully synthetic engine oil for hybrid and gasoline engines (including turbocharged and direct injection). Provides easy start-up, engine protection, fuel savings, and extended oil change intervals. Suitable for use in vehicles from Toyota, Honda, Nissan, Lexus, among others.

Specifications and standards:
SAE: 0W-16, API: SP/SP-RC, ILSAC: GF-6B,

Recommended for:
Toyota Hybrid
Honda Hybrid

Item No.	Cap.	Pcs per pack
431.001	1L	12
431.004	4L	4
431.020	20L	1
431.060	60L	1
431.208	208L	1

A.M.G. VENOL FULLY SYNTHETIC LONG LIFE SP 0W-20

High-quality, fully synthetic 0W-20 engine oil for downsized turbocharged gasoline engines and selected diesel engines. Reduces the risk of LSPI, lowers fuel consumption by up to 1.4%, and provides protection and full compatibility with engines requiring this oil grade.

Specifications and standards:
SAE: 0W-20, API: SP/SP-RC/SN Plus, ACEA: C6, ILSAC: GF-6B

Recommended for:
MB 229.71, MB 229.72;
OPEL OV401547;
FORD WSS-M2C952-A1;
FIAT 9.55535-GSX;
STJLR.03.5006

Item No.	Cap.	Pcs per pack
517.001	1L	12
517.004	4L	4
517.020	20L	1
517.060	60L	1
517.208	208L	1

A.M.G. VENOL FULLY SYNTHETIC LONG LIFE SP CF EC 0W-30 VW 504/507

Next-generation Long Life engine oil. Provides engine protection, reduces deposits and fuel consumption. Low SAPS technology protects the DPF and catalytic converter. Specifically developed for Volkswagen Group engines.

Specifications and standards:
SAE: 0W-30, API: SP, ACEA: C3

Recommended for:
VW 504.00/507.00;
MB-229.31/229.51, MB 229.52;
Porsche C30;
BMW Longlife-04;
GM DEXOS 2

Item No.	Cap.	Pcs per pack
370.001	1L	12
370.004	4L	4
370.020	20L	1
370.060	60L	1
370.208	208L	1

A.M.G. VENOL FULLY SYNTHETIC LONG LIFE SP 0W-40

Next-generation Long Life engine oil. Protects the engine, reduces deposits and fuel consumption. The low SAPS formulation protects the DPF and catalytic converter. Designed for Volkswagen Group engines.

Specifications and standards:
SAE: 0W-40, API: SP, ACEA: C3

Recommended for:
VW 502.00/505.00;
MB-229.31/229.51;
Porsche A40;
Renault RN 0700/0710;
BMW Longlife-04;
Fiat 9.55535-S2;
GM Dexos 2

Item No.	Cap.	Pcs per pack
519.001	1L	12
519.004	4L	4
519.020	20L	1
519.060	60L	1
519.208	208L	1

A.M.G. VENOL FULLY SYNTHETIC LONG LIFE SP CF 5W-20

High-quality synthetic engine oil for turbocharged downsized gasoline engines. Reduces fuel consumption, protects the engine, and is also suitable for diesel engines with exhaust aftertreatment systems.

Specifications and standards:
SAE: 5W-20, API: SP/SP-RC/SN Plus, ACEA: C6

Recommended for:
Ford WSS-M2C913-A, Ford WSS-M2C913-B, Ford WSS-M2C948-B;
Fiat 9.55535-CR1;
Jaguar Land Rover STJLR.03.5004;
Chrysler MS 6395

Item No.	Cap.	Pcs per pack
422.001	1L	12
422.004	4L	4
422.020	20L	1
422.060	60L	1
422.208	208L	1

A.M.G. VENOL FULLY SYNTHETIC LONG LIFE SP CF 5W-30

High-quality synthetic MIDSAPS engine oil. Reduces fuel consumption and prevents LSPI. Designed for gasoline and diesel engines (including those with DPF and Euro VI standard). Compatible with VW engines, including older generations.

Specifications and standards:
SAE: 5W-30, API: SP/CF, ACEA: C3

Recommended for:
MB-229.31/229.51;
Renault RN 0700/0710;
Porsche C30;
BMW Longlife-04;
GM DEXOS 2

Item No.	Cap.	Pcs per pack
423.001	1L	12
423.004	4L	4
423.020	20L	1
423.060	60L	1
423.208	208L	1

A.M.G. VENOL FULLY SYNTHETIC LONG LIFE SP CF 5W-40

Synthetic engine oil for high-performance engines. Reduces friction and fuel consumption, enhances performance. Provides full engine protection and extends oil change intervals.

Specifications and standards:
SAE: 5W-40, API: SP/CF, ACEA: C3

Recommended for:
BMW Longlife 04;
MB 229.31, MB 229.51;
Porsche A40;
Renault RN 0700/0710;
Ford WSS-M2C 937A;
VW 502.00/505.00

Item No.	Cap.	Pcs per pack
524.001	1L	12
524.004	4L	4
524.020	20L	1
524.060	60L	1
524.208	208L	1

Engine oils for sporty passenger cars

A.M.G. VENOL FULLY SYNTHETIC SPORT SN CF 5W-50 A3/B4

Synthetic all-season 5W-50 oil. Provides thermal protection, easy cold starts, and high shear resistance. Reduces fuel consumption and increases engine power and reliability.

Specifications and standards:
SAE: 5W-50, API: SN/CF, ACEA: A3/B4

Recommended for:
MB 229.3, MB 229.5,
Ford WSS-M2C931-C;
Porche A40

Item No.	Cap.	Pcs per pack
425,001	1L	12
425,004	4L	4
425,020	20L	1
425,060	60L	1
425,208	208L	1

A.M.G. VENOL FULLY SYNTHETIC SPORT SN CF 10W-50 A3/B4

Fully synthetic all-season engine oil. Provides thermal protection, easy cold starts, and friction reduction. Increases power, torque, and engine reliability while reducing fuel consumption.

Specifications and standards:
SAE: 10W-50, API: SN/CF, ACEA: A3/B4

Recommended for:
MB 229.3, MB 229.5;
Ford WSS-M2C931-C;
Porche A40

Item No.	Cap.	Pcs per pack
371,001	1L	12
371,004	4L	4
371,020	20L	1
371,060	60L	1
371,208	208L	1

A.M.G. VENOL FULLY SYNTHETIC SPORT SN CF 10W-60

Fully synthetic oil for high-performance and tuned engines. With esters and PAO additives, it provides protection, friction reduction, lower operating temperatures, increased power, and reliability.

Specifications and standards:
SAE: 10W-60, API: SN/CF, ACEA: A3/B4

Recommended for:
MB 229.3, MB 229.5;
Ford WSS-M2C931-C;
Porche A40

516,060	60L	1
516,208	208L	1

Oils for manual transmissions and drive axles

A.M.G. VENOL FULLY SYNTHETIC GL 5 75W-90

Modern synthetic GL-5 gear oil for manual transmissions and drive axles. Provides maximum protection and reliability in tough conditions. Designed for passenger cars, trucks, buses, and construction machinery.

Specifications and standards:
SAE: 75W-90, API: GL-5

Recommended for:
MIL-L-2105

Item No.	Cap.	Pcs per pack
730,001	1L	12
730,004	4L	4
730,020	20L	1
730,060	60L	1
730,208	208L	1

A.M.G. VENOL FULLY SYNTHETIC GL 5 75W-90 LS

High-quality, fully synthetic GL-5/LS gear oil based on PAO (Group IV). Designed for hypoid gears, differentials, manual transmissions, and limited-slip (LS) gearboxes. Provides exceptional protection, stability, and smooth operation under all conditions.

Specifications and standards:
SAE: 75W-90, API: GL-5

Recommended for:
ZF TE-ML 07A; ZF TE-ML 08

Item No.	Cap.	Pcs per pack
732,0	1L	12
732,0	4L	4
732,0	20L	1
732,0	60L	1
732,0	208L	1

A.M.G. VENOL FULLY SYNTHETIC GL 5 75W-140

Next-generation synthetic GL-5 gear oil designed for transmissions and drive axles operating under heavy loads. Provides maximum protection, thermal resistance, and seal compatibility. Recommended for passenger vehicles, trucks, buses, and construction machinery.

Specifications and standards:
SAE: 75W-140, API: GL-5

Recommended for:
SCANIA ST 0:10

Item No.	Cap.	Pcs per pack
731,001	1L	12
731,004	4L	4
731,020	20L	1
731,060	60L	1
731,208	208L	1

A.M.G. VENOL FULLY SYNTHETIC GL 5 75W/140 LS

Fully synthetic GL-5/LS gear oil based on mPAO (Group IV). Designed for hypoid gears, differentials, manual transmissions, and gearboxes, including those with limited slip (LS). Provides exceptional stability, protection, and smooth operation even under extreme conditions.

Specifications and standards:
SAE: 75W-140, API: GL-5

Recommended for:
ZF TE-ML 07A;
ZF TE-ML 08

Item No.	Cap.	Pcs per pack
733,001	1L	12
733,004	4L	4
733,020	20L	1
733,060	60L	1
733,208	208L	1

OILS A.M.G. VENOL

Oils for automatic transmissions

A.M.G. VENOL ATF VI

Synthetic ATF VI gear oil for modern and older automatic transmissions as well as power steering systems (Dexron VI, III, II). Provides wear protection, low-temperature fluidity, and high thermal stability. Compatible with other ATF oils.

Recommended for:

Acura ATF-Z1;
GM DEXRON®-III, GM DEXRON®-VIG;
Ford MERCON® LV;
Chrysler ATF+3 (MS 7176E), +4 (MS 9602);
TOYOTA/LEXUS TYPE T-III, IV, WS

Item No.	Cap.	Pcs per pack
536.001	1L	12
536.004	4L	4
536.020	20L	1
536.060	60L	1
536.208	208L	1

A.M.G. VENOL ATF CVT

Modern synthetic oil for continuously variable transmissions (CVT). Ensures smooth operation, wear protection, and stability under extreme conditions. For use exclusively in CVT systems.

Recommended for:

Audi/VW TL 52180/G 052 180;
Mercon C, Ford CVT 23/CVT 30;
Honda HMMF, Toyota TC;
Nissan NS-1, NS-2, NS-3;
Mitsubishi CVTF-J1/SP-III;
Subaru NS-2/Lineatronic CVTF;
Mini Cooper EZL 799;
Hyundai Genuine CVTF; Hyundai/Kia SP-III;
Suzuki TC/NS-2/CVT Green 1;
Dodge/Jeep NS-2/CVTF + GM/Saturn DEX-CVT;
MB 236.20

Item No.	Cap.	Pcs per pack
520.001	1	12
520.004	4	4
520.020	20	1
520.060	60	1
520.208	208	1

A.M.G. VENOL ATF DCT / DSG

Fully synthetic gear oil for dual-clutch transmissions (DSG/DCT). Provides protection under extreme conditions, reduces torque loss and fuel consumption, and extends transmission lifespan.

Recommended for:

Audi/VW TL 52180/G 052 180;
Mercon C, Ford CVT 23/CVT 30;
Suzuki TC/NS-2/CVT Green;
Honda HMMF, Toyota TC; Nissan NS-1, NS-2, NS-3;
Mitsubishi CVTF-J1/SP-III; Subaru NS-2/Lineatronic CVTF;
Mini Cooper EZL 799; Hyundai Genuine CVTF; Hyundai/Kia SP-III;
Dodge/Jeep NS-2/CVTF + GM/Saturn DEX-CVT; MB 236.20;

Item No.	Cap.	Pcs per pack
433.001	1L	12
433.004	4L	4
433.020	20L	1
433.060	60L	1
433.208	208L	1

(Import note: Not recommended for the use in hybrid CV Transmissions of Toyota)

Motorcycle oils

A.M.G. VENOL 4T SN 5W-40 FULLY SYNTHETIC

100% synthetic oil for 4-stroke motorcycle engines. Delivers maximum power and protects the engine, gearbox, and wet clutch. Meets JASO MA2 requirements. Suitable for both sport and touring motorcycles. Stable across a wide temperature range.

Specifications and standards:

SAE: 5W/40, API: SN, ACEA: A3

Recommended for:

JASO -MA-2

for passenger cars

www.venol.de

SYNTHESIS 0W-16/0W-20/0W-30

ENGINE OILS FOR PASSENGER CARS

0W-16

VENOL SYNTHESIS 0W16 SP (RC) A5/B5-A7/B7 GF-6B

Engine oil with low viscosity, designed for gasoline engines. Primarily developed for hybrid vehicles and cars equipped with smaller displacement engines. This oil prevents the occurrence of low-speed pre-ignition (LSPi). It offers excellent viscosity stability under all operating conditions and works perfectly with modern emission control systems.

Specifications and standards:

SAE: 0W-16, API: SP (RC), ACEA: A5/B5 - A7/B7, ILSAC: GF - 6B

Recommended for:

TOYOTA 08880-11005;
NISSAN HYBRID ENGINE KLANM-01A04 EXTRA SAVE X ECO;
HONDA 08215-99974, 08216-99974, 08232-P99S1LHE;

0W-20

VENOL SYNTHESIS 0W20 SP (RC) C5 GF-6A

Mid-SAPS engine oil made with ACTIVE POWER technology, designed for passenger cars and light commercial vehicles. Suitable for modern gasoline engines equipped with catalytic converters, as well as turbocharged diesel engines with DPF and TWC systems. It can also be used in hybrid vehicles and cars with smaller displacement engines. The oil maintains optimal engine cleanliness and ensures fuel economy.

Specifications and standards:

SAE: 0W-20, API: SP (RC), ACEA: C5/C6, ILSAC: GF-6A

Recommended for:

VENOL SYNTHESIS 0W20 SP (RC) C5 VW 508 509

A synthetic mid-SAPS engine oil, formulated with ACTIVE POWER technology, designed for year-round use in modern gasoline engines equipped with catalytic converters, as well as in turbocharged diesel engines with exhaust after-treatment systems (DPF, TWC). Recommended for hybrid vehicles and for cars equipped with small-displacement turbocharged gasoline engines. The oil ensures fuel economy and is recommended for VW Group vehicles that meet Euro 6 emission standards.

Specifications and standards:

SAE: 0W-20, API: SP (RC), ACEA: C5

0W-30

VENOL SYNTHESIS 0W30 SP A5/B5/C2 GF 6A

ACTIVE POWER technology engine oil with low ash content, designed for cars equipped with gasoline and diesel engines. It is recommended for use in engines with DPF (diesel particulate filter) and TWC (three-way catalyst). Suitable for passenger cars where ACEA C2 standard oils are recommended. Thanks to its formulation, the oil minimizes the likelihood of low-speed pre-ignition (LSPi).

Specifications and standards:

SAE: 0W-30, API: SP, ACEA: A5/B5/C2, ILSAC: GF-6A

Recommended for:

FORD WSS-M2C950-A;
JAGUAR LAND ROVER STJLR.03.5007

VENOL SYNTHESIS 0W30 C3 VW 504/507 SP/SN+

Long Life engine oil designed for gasoline and diesel engines. It ensures optimal performance and full engine protection under all operating conditions. Helps reduce particulate deposits on DPF filters and decreases the risk of catalyst poisoning in spark-ignition engines. Reduces fuel consumption and allows for extended oil change intervals. Recommended for Volkswagen Group vehicles.

Specifications and standards:

SAE: 0W-30, API: SP/SN+, ACEA: C3

Recommended for:

VW 504.00/505.00;
MB 229.51;
BMW LONG LIFE-04;
PORSCHE C30

5W-20

**VENOL SYNTHESIS 5W20 SP C5 GF-6A**

Engine oil made with ACTIVE POWER technology, designed for passenger cars equipped with gasoline engines, including turbocharged ones, as well as diesel engines of hybrid vehicles. The oil is produced using base oils derived from catalytic and highly selective refining of crude oil. Thanks to the use of optimal friction modifiers, the oil offers high stability at all temperatures.

Specifications and standards:
SAE: 5W-20, API: SP, ACEA: C5, ILSAC: GF-6A

Recommended for:
JAGUAR LAND ROVER STJLR.03.5004;

5W-30

**VENOL SYNTHESIS PREMIUM ULTRAS 5W30 C2**

Multigrade engine oil designed for vehicles with gasoline or diesel engines, with or without turbocharging, and equipped with emission reduction systems such as DPF (diesel particulate filter) and TWC (three-way catalyst). The advanced additive packages used in the oil formulation protect the engine against wear and low-speed pre-ignition (LSPI). The oil prevents deposit formation, reduces fuel consumption,

and extends engine life.

Specifications and standards:
SAE: 5W-30, API: SP, ACEA: C2, ILSAC: GF-6A

Recommended for:
CHRYSLER MS 6395;
FIAT 9.55535-CR1;

VENOL SEMISYNTHETIC SN CF 10W40

Semi-synthetic engine oil with ACTIVE POWER technology, designed for year-round use in modern diesel and gasoline engines, including those powered by LPG. Intended for use under extreme operating conditions. Reduces the risk of valve wear and ensures optimal lubrication and engine protection from the moment of start-up.

Specifications and standards:
SAE: 10W-40, API: SN/CF, ACEA: A3/B4

Recommended for:
MB 229.1/229.3;
VW 501.01/505.00;
PSA B71 2300;
RENAULT RN 0700/0710;

VENOL SEMISYNTHETIC MULTI PDG SM SLCG 4 CF 4 10W40

Semi-synthetic engine oil with ACTIVE POWER technology, designed for year-round use in modern gasoline and turbocharged or naturally aspirated diesel engines. Reduces the risk of valve wear, guarantees excellent lubrication, and ensures optimal engine performance regardless of the fuel type used: gasoline, diesel, or gas.

Specifications and standards:
SAE: 10W-40, API: SM/CG, ACEA: A3/B4

Recommended for:
MB 229.1/3;

15W-40

**VENOL FORMULA MULTI PDG SMSLCG4 CF4 15W40**

Mineral engine oil with ACTIVE POWER technology, designed for year-round use in modern gasoline engines and turbocharged diesel engines, including those with pump-injector systems. It facilitates cold engine starts and protects against excessive wear. Reduces fuel consumption and extends oil change intervals. The oil ensures optimal engine performance regardless of the fuel type used: gasoline, diesel, or gas.

Specifications and standards:
SAE: 15W-40, API: SM/CG, ACEA: A3/B4

Recommended for:

VENOLATF III DEX III YELLOW

Hydraulic and transmission oil intended for use in automatic transmissions, hydraulic power steering systems, and other hydraulic mechanisms of passenger cars and trucks where the manufacturer recommends the use of Dexron III / Mercon type oil.

Recommended for:
GM DEXRON III;
MERCON M2C 138-CJ/166-H;
ALLISON C-4; MB 236.1/5/6/9/10;
VOITH G 607/H55,6335,34;
ZF TE ML 03D/04D/09B/11A/14B/17C;
CHRYSLER ATF +3/+4;
FORD M2C924-A/M2C922-A1;
GM 9986195; TOYOTA TYPE T/T-IVT-III/T-IV;
MAN 339FV1/Z1; BMW 83 22 7 542 290/83 22 0 402 413;
HONDA ATF Z4; HYUNDAI SP III/SP IV;
VW G 055 025/052 990; AISIN WARNER

VENOLATF IV RED

Transmission oil intended for use in automatic transmissions. It provides longer service life compared to other ATF Dexron III fluids. Reduces transmission wear at low temperatures, ensuring longer durability of individual components and the transmission itself.

Recommended for:
GM DEXRON III H;
FORD MERCON LV;
MB 236.41;
HYUNDAI/KIA SP-IV, SP-II, SP-III, SP-IV/SPH-IV;
TOYOTA ATF TYPE T-III, T-IV;
ZF M1375;
NISSAN/INFINITI MATIC S, K, J, D;
ALLISON C-4;
HONDA ATF Z1; DAIMLER CHRYSLER ATF +3, +4;
VW/AUDI G 055 540 A2; BMW 83 22 9 407 858/83 22 9 407 859;
MITSUBISHI DIAMOND ATF SP II, SP III, JALOS JASO 1A

VENOLATF ULV 10S RED

Synthetic transmission oil designed for automatic transmissions (ATF) with ultra-low viscosity (ULV), developed based on PAO and oils derived from the hydrocracking process. Recommended for use in the latest 8- and 10-speed automatic transmissions from brands such as FORD and GM. It is especially suitable where the Ford WSS-M2C949-A specification is required. This oil is recommended for the following automatic transmissions: Ford 8-speed: 8F24, 8F35, 8F40, 8F57; Ford 10-speed: 10R60, 10R80-MHT, 10R80, 10R140; GM 10-speed: 10L80, MF6, 10L90 MGL, 10L100 (Allison) MGM/MGU. Flushing the transmission with Venol ATF ULV 10S oil before filling is recommended. Follow the manufacturer's recommendations.

VENOLATF DCT DSG TRANSMISSION

Synthetic technology transmission oil designed for dual-clutch transmissions from leading manufacturers: VW/Audi, Ford, Volvo, Chrysler, Dodge, Mitsubishi, and others. Recommended for dual-clutch transmissions DQ-250 (02E) and DQ-500 (0BT) in accordance with VW standards G 052 182, DL-501 (0B5), and VW Part-No. G 052 529 for VW, Audi, Seat, and Skoda. It guarantees optimal lubricating properties under all operating conditions, even under extremely high loads during both winter and summer periods.

Recommended for:
VW G 052 182 A2; VW G 052 529 A2;
FORD 1490763, 1490761; FORD WSS-M2C936-A,
FORD USA XT-11-QDC, FORD WSD-M2C200-D2;
CHRYSLER 68044345 EA;
VOLVO 1161838, 1161839;
MITSUBISHI M2320665, MITSUBISHI Dia-Queen SSTF 4;
BOT 341;
PEUGEOT/CITROEN 9734.S2 for DCSG
(PEUGEOT 4007, CITROEN C-CROSSER);
FIAT 9.55550-M26 for TCT (Twin Clutch Transmission)

VENOLATF CVT TRANSMISSION

Transmission oil designed for automatic continuously variable transmissions (CVT). It provides exceptional protection even under the most demanding operating conditions and meets all requirements for CVT transmissions. Ensures excellent wear protection in all operating conditions. ATF CVT oil is not recommended as a substitute for other types of ATF oils.

Recommended for:
VW/AUDI TL 52180/G 052 180;
FORD CVT 23/CVT 30;
MERCON C;
HONDA HMMF;
MINI COOPER EZL 799;
SUZUKI TC/NS-2/CVT GREEN 1;
TOYOTA TC;
NISSAN NS-1, NS-2, NS-3;
HYUNDAI GENUINE CVTF; HYUNDAI/KIA SP-III;

VENOLATF 8 HP

Transmission oil intended for use in modern automatic transmissions with 8 speeds or fewer. It increases transmission lifespan by reducing friction. Provides thermal stability and excellent resistance to deposit formation. The oil has exceptionally good flow properties at low temperatures. Not intended for use in CVT and DCT/DSG transmissions.

Recommended for:
ZF Lifeguardfluid 8 (S671 090 312);
ZF Lifeguardfluid 9 (AA01.500.001);
VW/Audi G 060 162 A1/A2/A6, G 055 162 (A2, A6);
VW/Audi G 055 540 (A2);
BMW L12108; 83 22 2 152 426, 83 22 2 305 397, 83 22 2 289 720;

HOW TO CLEAN THE FUEL INJECTION SYSTEM

VENOL INJECTION CLEANER DIESEL is a product designed for effective cleaning of fuel injection systems in diesel engines. The liquid removes carbon deposits from injector nozzles, improving fuel atomization and combustion conditions. Regular use reduces fuel consumption, limits smoke emissions, quiets engine operation, and extends the lifespan of the injection system. The product is suitable for all types of injection systems: injection pumps, unit injectors, and Common Rail injectors.

MOTORCYCLE OILS

VENOL 4T 5W40 SN

Engine oil designed for four-stroke, heavily loaded motorcycle gasoline engines operating under extreme conditions. It guarantees continuous lubrication under the toughest working conditions, such as low temperatures (cold start) and high temperatures with the engine running at maximum heat. Provides full engine protection during high-performance sport riding.

Specifications and standards:
SAE: 5W-40, API: SN, ACEA: A3

VENOL SYNTHESIS SCOOTER 4T SN 10W30 JASO MB

Synthetic engine oil designed for scooters and motorcycles equipped with four-stroke engines without a wet clutch. It improves cold engine start-up and extends engine life. Provides excellent protection against overheating, which is especially important during urban riding with frequent start-stop intervals. Offers outstanding anti-corrosion and antioxidant properties, while keeping the engine clean. The oil ensures excellent performance and fuel efficiency, contributing to reduced CO₂ emissions into the atmosphere.

Specifications and standards:
SAE: 10W/30, API: SN

Production

Container

We manufacture high-density polyethylene (HDPE) packaging using blow extrusion technology. Our HDPE containers are produced for our own needs as well as for commercial sale. We offer packaging in the following capacities: 0.5L, 1L, 4L, 5L, 7L, 10L, and 20L.

Blending plant

The oil production process takes place in a modern, computerized blending facility equipped with seven mixers featuring integrated heating, dosing, and filtration systems. Raw materials are dosed, and finished products are transferred from the blending area using a PIGGING system. The PIGGING system operates using pistons inside the pipeline, driven by compressed air. This ensures both production repeatability and cleanliness, as the pipelines are emptied and cleaned after each operation. This guarantees accurate dosing of raw materials and prevents cross-contamination between different products. The entire blending process is monitored by a team of qualified personnel.

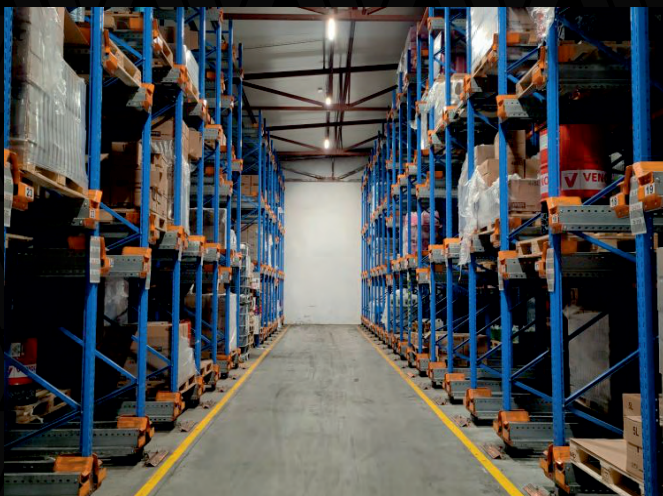

Packaging

The packaging and bottling of our products are carried out on modern, automated, and robotized filling and packaging lines. We operate three fully automated, high-capacity filling and packaging lines, as well as three semi-automated lines. Our staff ensures that all products are packed in an aesthetic, durable, and clearly labeled manner. Products leaving our facility are sealed with induction cap seals for maximum safety. The entire production process is supervised by a dedicated Production Management System (PMS).

Warehouse

We have several warehouses with a total capacity of 4,500 pallet spaces. Different warehouse sections utilize various systems to support warehouse operations, such as drive-in rack systems, radio-controlled shuttle rack systems (radioshuttle), and mobile rack systems. All these systems are integrated with a Warehouse Management System (WMS), ensuring proper storage of products and full traceability of their locations. We specialize in loading sea containers, which requires specialized solutions and precision in arranging goods within the container.

TRUCK ENGINE OILS

VENOL TRUCK BLUE CK 4 5W30

Engine oil (MID ASH) intended mainly for Diesel engines. It provides excellent performance in modern, highly loaded engines with low emissions equipped with exhaust gas recirculation (EGR) and systems such as (DPF) and with oxidation catalysts for Diesel engines (DOC). It is fully compatible with older generation engines and can be used with the same success in standard engines equipped with older exhaust gas treatment solutions. Recommended for trucks, working machines, mining industry machinery, construction, aggregate mining and agriculture.

Specifications and standards:
SAE: 5W-30, API: CK-4, ACEA: E9/ E7

Recommended for:
VOLVO VDS-4.5;
RENAULT RLD-4;
MAN M.3775;
MB 228.31;
DEUTZ DQC-III-10 LA;
CATERPILLAR ECF-3;

VENOL TRUCK BLUE CK 4 5W30 E8/E11

A modern, multi-season engine oil formulated using synthetic technology. Designed for highly loaded turbocharged and non-turbocharged diesel engines equipped with the latest exhaust aftertreatment systems such as EGR, DPF, and DOC. The advanced MidSAPS oil technology significantly extends engine lifespan under extremely demanding operating conditions. It features excellent low-temperature properties, ensuring outstanding performance and complete engine protection against wear and corrosion in all working conditions. It reduces friction, improves fuel efficiency, and extends oil change intervals.

Specifications and standards:
SAE: 5W-30, API: CK-4/CJ-4/SN, ACEA: E6/E7/E8/E9/E11

VENOL TRUCK MAX CJ4 5W30 E6

The latest generation oil, specially developed for modern diesel engines that meet the most stringent Euro V and EURO VI emission standards. Ensure the protection and viability of components of the exhaust system such as catalytic converters and particulate filters. It guarantees operational stability in extreme temperatures. Provides engine protection against wear and corrosion, and extended drain intervals. It is recommended for diesel engines equipped with exhaust gas recirculation systems with and without particulate filters and for engines with a selective catalyst reducing nitrogen oxides in exhaust gases.

Specifications and standards:
SAE: 5W-30, API: CJ-4, ACEA: E6/E9

Recommended for:

VENOL TRUCK MAX CJ4 5W30 E9

Oil VENOL Synthesis Truck Max CJ 4 5W30 is produced on the basis of specially selected synthetic and mineral oils, using the latest generation MID SAPS type additive package. The use of such highly advanced technology effectively reduces the friction between cooperating elements, ensures a decrease in fuel consumption and an increase in engine power. Very good low temperature properties guarantee optimal lubrication and protection in all temperature conditions, including the so-called easy engine start during periods of large temperature drops. Designed for heavy duty Diesel engines that meet Euro VI and Euro V standards.

Specifications and standards:
SAE: 5W-30, API: CJ-4, ACEA: E9/E7

Recommended for:

VENOL TRUCK BLUE CK 4 10W30

VENOL TRUCK MAX CJ 4 5W-30 LOW ASH is a specialised engine oil. It is produced from the highest quality of synthetic base oils, hydrogen treated oils and a high-tech system for the ASH-type refinements system. The combination of these components guarantees maximum engine protection. In addition, it extends the trouble-free operation of the engine and systems used in vehicles that meet Euro VI and Euro V standards, such as EGR exhaust gas recirculation or diesel particulate filters (DPF). The use of such highly advanced technology effectively reduces friction between cooperating elements, reduces fuel consumption and increases engine power.

Specifications and standards:

VENOL TRUCK BLUE CK 4 10W30 E8/E11

Premium-quality, fuel-efficient engine oil designed for highly loaded turbocharged and non-turbocharged diesel engines equipped with the latest exhaust aftertreatment systems such as EGR, DPF, and DOC. The advanced MidSAPS oil technology significantly extends engine lifespan under extremely demanding operating conditions. It features excellent low-temperature properties, ensuring outstanding performance and complete engine protection against wear and corrosion in all working conditions. This oil can also be successfully used in gasoline engines, as it meets the API SN classification.

Specifications and standards:
SAE: 10W-30, API: CK-4/CJ-4/SN, ACEA: E6/ E7/E8/E9/E11

VENOL TRUCK MAX CJ4 10W30 E6

Engine oil designed for diesel engines operating under heavy loads, compliant with EURO VI and EURO V standards. The "Low SAPS" formula ensures a low content of sulfur, phosphorus, and sulfate ash. It guarantees reliable operation of systems such as Exhaust Gas Recirculation (EGR) and Diesel Particulate Filters (DPF). Effectively reduces friction between interacting components, lowers fuel consumption, and helps increase engine power. Provides engine protection during cold starts.

Specifications and standards:
SAE: 10W-30, API: CJ-4/CJ-4, ACEA: E6/E9

Recommended for:

VENOL TRUCK BLUE CK 4 10W40

Engine oil (MID ASH) intended mainly for Diesel engines. It provides excellent performance in modern, highly loaded engines with low emissions equipped with exhaust gas recirculation (EGR) and systems such as (DPF) and with oxidation catalysts for Diesel engines (DOC). It is fully compatible with older generation engines and can be used with the same success in standard engines equipped with older exhaust gas treatment solutions. Recommended for trucks, working machines, mining industry machinery, construction, aggregate mining and agriculture.

VENOL TRUCK CF 4 20W50

High quality new generation multigrade mineral oil, designed for diesel engines with and without turbocharging. The relevant production technology and functional additives provides ideal lubrication, cleanliness and maximum engine protection under all conditions.

Specifications and standards:
SAE: 20W50, API: CF-4, ACEA: E2

Recommended for:
MB 228.0; MB 228.1;
MAN 270; MAN 271;
VOLVO VDS-2;
MTU TYPE 1.0

Item No.	Cap.	Pcs in package
024,005	5L	4
024,020	20L	1
024,060	60L	1
024,208	208L	1
024,850	850KG	1

VENOL DIESEL ECONOMIC CD 20W50

Mineral oil for whole year, designed for high-pressure engines with or without turbocharging, which are extensively exploited. Recommended for passenger cars, trucks and buses with high mileage. The most advanced production technology and accordingly selected viscosity additives reduce fuel and oil consumption.

Specifications and standards:
SAE: 20W-50, API: CD, ACEA: B2/E2

Item No.	Cap.	Pcs in package
027,001	1L	12
027,005	5L	4
027,020	20L	1
027,060	60L	1
027,208	208L	1
027,850	850KG	1

VENOL DIESEL CD 10W

Winter mineral oil drawn up with the thought about, delivery, working diesel engines of passenger cars both at small as well as big loads. Optimum putting together oil bases, and the package of ennobling additions is guaranteeing the protection and the reliability of the work of an engine.

Specifications and standards:
SAE: 10W, API: CD

Item No.	Cap.	Pcs in package
900,005	5L	4
900,020	20L	1
900,060	60L	1
900,208	208L	1
900,850	850KG	1

TRUCK ENGINE OILS

VENOL HD 40 SF CD

Seasonal motor oil for use in diesel engines with and without turbocharging. Designed for trucks, vans, buses, and other land and sea vehicles, where are required high properties of cleaning and neutralizing. Oil for engines and applications where is acceptable to use oil API CD or lower grade, and proper viscosity grade.

Specifications and standards:
SAE: 40, API: SF CD

Item No.	Cap.	Pcs in package
920,001	1L	12
920,004	4L	4
920,005	5L	4
920,020	20L	1
920,060	60L	1
920,208	208L	1
920,850	850KG	1

VENOL HD 50 SF CD

Seasonal motor oil for use in diesel engines with and without turbocharging. Designed for trucks, vans, buses, and other land and sea vehicles, where are required high properties of cleaning and neutralizing. Oil for engines and applications where is acceptable to use oil API CD or lower grade, and proper viscosity grade.

Specifications and standards:
SAE: 50, API: SF/CD

Item No.	Cap.	Pcs in package
168,001	1L	12

168,850	850KG	1

VENOL HD 40 CF 4

One-season engine oil designed for application in diesel engines with and without turbo-charging. Designed for trucks, vans, buses and other land and seas vehicles, which demand high refined engine oil. VENOL HD oil guarantees optimum lubrication under operating conditions, high level protection against corrosion and wear.

Specifications and standards:
SAE: 40, API: CF 4

Item No.	Cap.	Pcs in package
250,001	1L	12
250,005	5L	4
250,020	20L	1

OILS FOR AGRICULTURE

VENOL TRAKTOR STOU CG 4 GL 4 HVLP 10W30

Semi-synthetic, multifunctional STOU 10W-30 oil, designed primarily for use in agricultural machinery and tractors, in all working conditions, year-round. Suitable for lubricating engines, various types of transmissions, wet brake clutches, and hydraulic systems. It provides excellent corrosion protection, prevents deposit formation, and keeps the entire lubrication system clean. Can also be used in older machines where the manufacturer recommends oils in the CF-4/CD class.

Specifications and standards:

SAE: 10W-30, API: CG-4/GL-4, ACEA: E3, DIN 51524 cz.2: HVLP

Recommended for:

FORD ESN-M2C159-B;
JOHN DEERE J27;
MASSEY FERGUSON CMS M1145/1144;
ZF TE-ML 06B/07B;

VENOL TRAKTOR STOU CG 4 GL 4 HVLP 10W40

Semi-synthetic, multifunctional STOU 10W-40 oil, designed primarily for use in agricultural machinery and tractors, in all working conditions, throughout the year. Suitable for lubricating engines, various types of transmissions, wet brake clutches, and hydraulic systems. It provides excellent protection against corrosion, prevents the formation of deposits, and keeps the entire lubrication system clean. Can also be used in older machines where the manufacturer recommends oils in the CF-4/CD category.

Specifications and standards:

SAE: 10W-40 API: CG-4/GL-4 ACEA: E3 DIN 51524 cz.2: HVLP

VENOL VENLUB TDT0 4 SAE 10W

Multifunctional transmission oil that meets strict quality requirements. It is used in hydraulic or hydro-mechanical systems of machines from leading manufacturers. Compatible and miscible with CAT TO-2 specification oils, as well as with hydraulic and engine oils. Eliminates wet brake squeal, protects lubricated components against corrosion and excessive wear. Ensures long transmission life thanks to an optimal level of friction-modifying additives. Switching from CAT TO-2 to CAT TO-4 oil does not negatively affect the system in any way.

Specifications and standards:

SAE: 10W, API: GL-4

Item No.	Cap.	Pcs in package
336,005	5L	4
336,020	20L	1
336,060	60L	1
336,208	208L	1
336,850	850KG	1

VENOL VENLUB TDTO 4 SAE 30

Multifunctional transmission oil meeting stringent quality standards. Designed for use in hydraulic and hydrostatic transmission systems of machinery from leading manufacturers. It is miscible and compatible with oils meeting CAT TO-2 specifications, as well as with hydraulic and engine oils. Eliminates so-called wet brake squeal, protects lubricated components from corrosion and excessive wear. Ensures long transmission life thanks to an optimal amount of friction-reducing additives. Switching from CAT TO-2 to CAT TO-4 oil does not adversely affect the system.

Specifications and standards:
SAE: 30, API: GL-4

Recommended for:
CAT TO-4;
CAT TO-4M;
KOMATSU KES 07.868.1;
ZF TE-ML 03C, 07D, 07F;

VENOL GARTEN 2T TC

High-quality semi-synthetic oil designed for use in two-stroke engines with premixed lubrication systems. Used in combustion engines of lawn mowers, brush cutters, trimmers, and chainsaws. The use of a solvent allows direct application into the fuel tank without the need for additional mixing. 100 ml of oil is sufficient for 5 liters of fuel.

Specifications and standards:
API: TC

Item No.	Cap.	Pcs in package
043,0001	0,1L	50

VENOL GARTEN SG CE 30

Mineral engine oil designed for four-stroke engines used in garden machinery. Suitable for use in the engines of lawn mowers, brush cutters, and trimmers. Perfect for engines operating in cultivators, micro-tractors, rototillers, plows, and other auxiliary equipment.

Specifications and standards:
SAE: 30, API: SG/CE

INDUSTRIAL OILS

Hydraulic oils

VENOL VENLUB L HL 32 / 46 / 68 / 100 / 150

Mineral hydraulic oils with a composition of antiwear, antioxidant, anti-corrosive additives. Formulated for use in medium-duty fluid drive and hydraulic control systems. Can be used in in medium-loaded gears and circular systems.

Specifications and standards:
ISO VG: 32 / 46 / 68 / 100 / 150
ISO: L-HL, DIN 51524-1

Product / Item number	Capacity / Pcs per package

VENOL VENLUB L HLP 22 / 32 / 46 / 68 / 100 / 150

Hydraulic oils with enhanced antiwear properties. Formulated for use in hydraulic power transmission systems and control systems. Thanks to zinc-containing additives, L-HLP oils have excellent antiwear properties, as well as anti-corrosive, antioxidant, anti-foaming and deemulsifying characteristics. Oils characterized by outstanding filterability.

Specifications and standards:

VENOL VENLUB L HLP/HM 22 / 32 / 46 / 68 / 100 / 150 zinc free

Hydraulic oils produced with highly refined mineral oils and a zinc-free package of additives. It is designed for all kinds of hydraulic systems of machines and devices operating in normal and difficult operating conditions, especially in a continuous system and when there is a risk of water contamination of the system. These oils guarantee: excellent cleaning and dispersing properties, excellent anti-corrosion and anti-wear properties, very good oxidation stability, very good filterability - even in the presence of water.

Specifications and standards:
ISO VG: 22 / 32 / 46 / 68 / 100 / 150
ISO: L-HM, DIN 51524-2

VENOL VENLUB LDAJ 32 / 46 / 68 / 100 / 150 SYNTHETIC

Venol L - DAJ Fully Synthetic oil is the highest quality, fully synthetic compressor oil. It is intended for the lubrication of piston and rotary (vane) air compressors operating in moderate conditions. It can also be used for the lubrication of screw compressors operating in severe conditions. Characterized by good oxidation resistance, low coking tendency, excellent anti-corrosion and demulsifying properties.

Specifications and standards:
ISO VG: 32 / 46 / 68 / 100 / 150
ISO: L - DAJ

Compressor oils

VENOL VENLUB LDAJ 32/46/68/100/150

High-quality compressor oil intended for the lubrication of rotary air compressors, produced of high-quality mineral oils. It contains optimally selected enriching additives such as antioxidants, corrosion inhibitors and EP additives. Thanks to the unique properties of oxidation resistance, it provides extended periods between oil changes, reduces downtime and repair costs. It can be used also as a hydraulic fluid in turbine control systems and for lubrication of circulation systems of steam, gas and water turbines.

Specifications and standards:
ISO VG: 32 / 46 / 68 / 100 / 150
ISO: L – DAJ
DIN 51517-3; 51524-3

Industrial oils – other

VENOL VENLUB GUIDE OIL / SLIDEMAX

Oil designed for lubricating all types of sliding guides, especially vertical guides. It provides proper friction characteristics and eliminates the "stick-slip" phenomenon. It ensures extended operating time of cutting systems and tools.

Specifications and standards:
ISO VG: 68, DIN 51502 - CGLP

Item No.	Cap.	Pcs in package
380,005	5L	4
380,020	20L	1
380,208	208L	1
380,850	850KG	1

VENOL VENLUB VACUUM PUMP OIL SAE 100

VENOL Venlub oil for vacuum pumps is obtained on the basis of high-quality mineral base oils, obtained as a result of processing of crude oil. By using specially selected additives, this oil has a very good anticorrosive and antioxidant properties. This oil is intended for use in rotary vacuum pumps. It has good resistance to oxidation, excellent lubricating properties, has very good anti-corrosion properties.

Specifications and standards:
ISO VG: 100

Item No.	Cap.	Pcs in package
806,020	20L	1
806,208	208L	1
806,850	850KG	1

VENOL PNEUMATIC VG100

Oil for pneumatic tools used in drilling in the wells in the rocks. Produced from mineral base oils and appropriate additives typical for such kind of work. The oil while working creates a lubricating film difficult to break, prevents friction surfaces working under high pressure. Adhesive properties, preventing and emulsifying agents provide extended operation of the equipment even in a damp, dusty environment. This oil is used for lubrication of highly loaded pneumatic tools such as drills, hammers, drills, etc., and is used in underground and surface mining excavations.

Specifications and standards:
ISO VG: 100

Item No.	Cap.	Pcs in package
246,020	20L	1
246,208	208L	1
246,850	850KG	1

VENOL MOLDING OILS

The oils are produced using highly refined mineral oils, enriched with a carefully selected package of enhancing additives, including active ingredients that protect surfaces against corrosion. These oils are used for coating molds in concrete production. Form oils are applied to lubricate molds as an anti-adhesive agent in aerated concrete manufacturing or may be used for other applications upon prior agreement with the customer. They are produced in various viscosity grades depending on the method of application when coating steel molds and others.

Specifications and standards:
ISO VG: 22, 32, 46, 68, 100, 150

Item No.	Cap.	Pcs in package
116,208	208L	1
116,850	850KG	1

VENOL EMULSIFYING OILS ES-12

Emulsifying oils for metalworking have been developed for preparing water-based emulsions used as cooling and lubricating fluids in machining steel, cast iron, non-ferrous metals, and their alloys. The recommended emulsion concentration, depending on the type of machining and the material being processed, ranges from 5% to 15%. It is advised to prepare the emulsions using water with a hardness of up to 15°N. Recommended working concentrations of the emulsion (prepared with water hardness up to 15°N) depending on the type of machining and material: grinding – 3 to 5%, turning, milling, drilling, reaming – 5 to 10%, threading – 10 to 15%.

Specifications and standards:
ISO L-MAA

**VENOL ANTIFREEZE G-12+**

G12+ radiator fluid is a ready-to-use coolant produced based on ethylene glycol and carefully selected enhancing additives. It is compatible with all ethylene glycol-based coolants. G12+ fluid is suitable for long-term use in LONG LIFE engine cooling systems and is compatible with all car brands. It is designed for aluminum, steel, and copper radiators. G12+ protects against overheating in summer and freezing in winter, with a freezing point below -37°C. It also prevents corrosion within the cooling system.

Recommended for:

**VENOL ANTIFREEZE CONCENTRATE G-12+**

Concentrate of cooling system fluid based on ethylene glycol and carefully selected enhancing additives, which according to the Nexium brand meets the Volkswagen/Audi/Seat/Skoda specification: TL 774-G12+. It provides excellent protection against freezing, corrosion, rust, and boiling. The product uses state-of-the-art silicate-free technology primarily based on organic acids, ensuring long-lasting, maintenance-free protection of all engine components, including those made of aluminum, ferrous metals, and their alloys. Mixing ratio: 50% concentrate + 50% water – providing freeze protection down to -37°C.

Greases

VENOL GREASE GRAFT

Grease intended for lubricating: screw threads, open gear drives, leaf springs, worm gears, chains, and other heavily loaded friction points. It can also be used as an assembly grease. The operating temperature range of the grease is from -20°C to +60°C.

Item No.	Cap.	Pcs per pack	Item No.	Cap.	Pcs per pack
180,040	0,4KG	12	180,010	10KG	1
180,085	0,85KG	12	180,018	18KG	1
180,004	4,5KG	1	180,180	180KG	1

VENOL GREASE STP

Calcium grease designed for periodic lubrication of car chassis, pins, joints, and other friction points. Operating temperature range: from -20°C to +60°C. It is water-resistant. Not suitable for lubricating rolling bearings or water pumps.

Item No.	Cap.	Pcs per pack	Item No.	Cap.	Pcs per pack
181,040	0,4KG	12	181,010	10KG	1

181,004	4,5KG	1	181,180	180KG	1

VENOL GREASE LT 4 S 3

Multipurpose lithium grease designed for lubricating rolling bearings, sliding bearings, and other mechanical vehicle components operating under conditions requiring high mechanical stability and resistance to aging. Operating temperature range of the grease: approximately -30°C to 130°C.

Item No.	Cap.	Pcs per pack	Item No.	Cap.	Pcs per pack

183,004	4,5KG	1	183,180	180KG	1

VENOL GREASE LT 43

Multipurpose lithium grease designed for lubricating rolling and sliding bearings, as well as other friction surfaces operating under normal working conditions. The operating temperature range of the grease is from -30°C to 130°C. It features high mechanical stability and is resistant to water.

Item No.	Cap.	Pcs per pack	Item No.	Cap.	Pcs per pack
186,040	0,4KG	12	186,010	10KG	1

186,004	4,5KG	1	186,180	180KG	1

VENOL GREASE EPX 0

Gear grease designed for lubricating enclosed cylindrical and bevel gears, as well as rolling and sliding bearings operating under normal conditions. Suitable for use in central lubrication systems. The operating temperature range of the grease is from -30°C to 100°C.

Item No.	Cap.	Pcs per pack	Item No.	Cap.	Pcs per pack
187,004	4,5KG	1	187,180	180KG	1
187,010	10KG	1

189,018	18KG	1			

VENOL GREASE LT 4 EP 2

Grease designed for lubricating rolling and sliding bearings operating under high and shock loads. It can be used for lubricating slow-speed gears, joints, and guides, and is also suitable for use in metal rolling mills, heavy construction machinery, presses, and crushers.

Item No.	Cap.	Pcs per pack	Item No.	Cap.	Pcs per pack
191,040	0,4KG	12	191,018	18KG	1
191,004	4,5KG	1	191,180	180KG	1
191,010	10KG	1			

VENOL GREASE LT 4 EP 3

Grease designed for lubricating rolling and sliding bearings operating under high and shock loads. It can be used for lubricating slow-speed gears, joints, and guides, as well as in metal rolling mills, heavy construction machinery, presses, and crushers. It is resistant to being washed out by water.

Item No.	Cap.	Pcs per pack	Item No.	Cap.	Pcs per pack
192,004	4,5KG	1	192,180	180KG	1
192,010	10KG	1			
192,018	18KG	1			

VENOL GREASE BENTOS EP 23

Grease designed for lubricating rolling and sliding bearings, as well as other friction pairs, operating under high shock loads within the upper temperature range of usability. The operating temperature range of the grease is from -20°C to 200°C. It is not recommended for use on bearings driven by low torque or with low radial clearance. This is a non-melting grease containing molybdenum disulfide, resistant to water washout.

Item No.	Cap.	Pcs per pack
750,010	10KG	1
750,180	180KG	1

CORE BUSINESS

The company deals with activities related to production of high quality lubricating oils for various applications in the automotive and industrial sectors as well as high-quality operating fluids and car care agents. The company's domain is production of the highest quality motor oils of the Active Power group, which is a series of technologically advanced products and raw materials allowing to achieve the highest power with the lowest possible fuel consumption. All products are made of the best components available on the market. For this purpose, we cooperate with such entities as: Afton, Infineum, Chevron, Exxon, Evonik. Currently, products under the VENOL brand are sold in over 70 countries around the world. Recent years in the company's activity are very intense and focused on dynamic development. The company's goal is to implement innovative product solutions and strengthen the export potential of the company.

The high quality of the business is confirmed by the award and maintenance of the Quality Management Systems certificates.

A quality assurance system has been in operation since 2000 in accordance with ISO 9001: 2015, certified by the IMQ CSQ.

The dynamic changes on the lubricant market led to cooperation in the field of technology and research with the research and development centres and Universities in Germany. We cooperate with leading manufacturers of combustion engines, which is confirmed by technical approvals. We ensure that we do everything to provide the best products to meet the needs of customers.
