

HOW TO FIX ENGINE FAULTS ?

A M G VENOL INJECTION CLEANER GASOLINE

VENOL INJECTION CLEANER GASOLINE is a product designed for effective cleaning of fuel injection systems in gasoline engines. Clean injectors improve fuel atomization, which leads to reduced fuel consumption, less exhaust smoke, and quieter engine operation. Regular use extends engine life. The product is suitable for engines with both port and direct fuel injection systems.

A.M.G. VENOL INJECTION CLEANER DIESEL

VENOL INJECTION CLEANER DIESEL is a high-quality product designed for effective cleaning of fuel injection systems in diesel engines. It safely removes carbon deposits from injector nozzles, improving fuel atomization and combustion conditions. Regular use reduces fuel consumption, limits smoke emissions, quiets engine operation, and prolongs the lifespan of the injection system. The product is suitable for all types of injection systems: injection pumps, unit injectors, and Common Rail injectors.

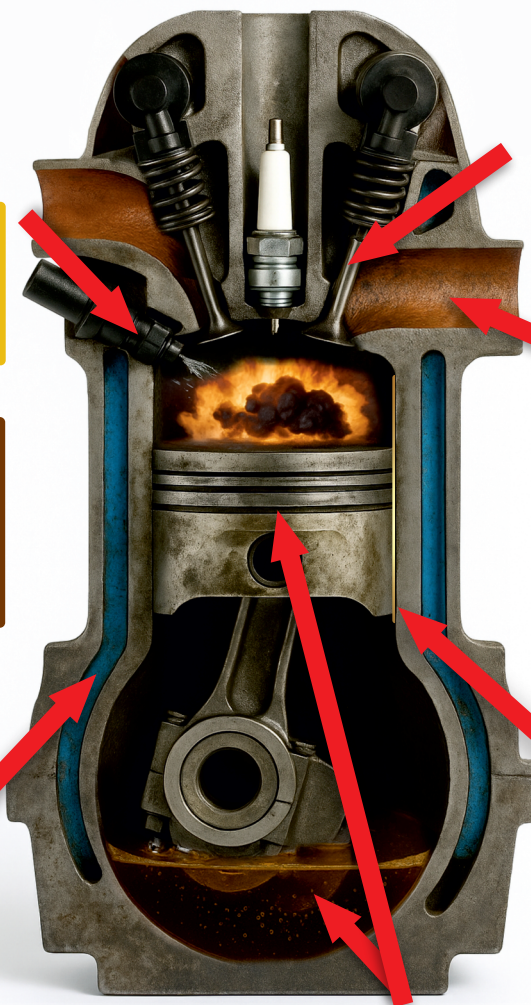

A M G VENOL RADIATOR FLUSH

VENOL RADIATOR FLUSH is a high-performance cleaner specifically formulated to remove oil residues and limescale deposits from an engine's coolant system. Flushing the system improves both engine cooling and vehicle cabin heating efficiency.

A.M.G. VENOL RADIATOR LEAK STOP

VENOL RADIATOR LEAK STOP is a coolant-system additive designed to seal leaks in the radiator, heater core, and coolant hoses. The product reacts with air to form a durable sealing layer. It won't contaminate the coolant or reduce the system's efficiency.

A.M.G. VENOL ENGINE SEAL

VENOL ENGINE SEAL is an engine-oil additive that rejuvenates rubber seals, effectively reducing oil leaks and preventing oil consumption caused by leaking valve stem seals.

A.M.G. VENOL DPF BOOSTER

VENOL DPF BOOSTER is a fuel additive designed to clean diesel particulate filters (DPF) in diesel engines. It can be used in all vehicles equipped with a diesel engine and an installed DPF. The product lowers the combustion temperature of accumulated soot, facilitating the regeneration of the filter. Regular use, approximately every 5,000 kilometers, extends the time between filter regeneration cycles and reduces oil dilution by fuel.

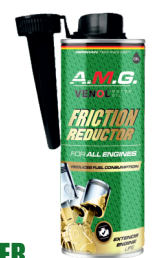

A.M.G. VENOL ENGINE FLUSH

VENOL ENGINE FLUSH is an engine interior cleaning additive used before an oil change. It acts immediately upon application. The product flushes carbon deposits and sludge from oil channels, hydraulic lifters, the oil pan, and piston rings. Engine flushing improves compression and reduces oil consumption. The additive should be used before every engine oil change. It is suitable for all gasoline and diesel engines.

A.M.G. VENOL FRICTION REDUCER

VENOL FRICTION REDUCER is an engine oil additive designed to reduce friction. It is intended for use in all gasoline and diesel engines, both with and without a diesel particulate filter (DPF). The product has a dual action: it forms a durable (50,000 km) ceramic coating and an active chemical layer. The base of the product is a specially formulated mixture of boron nitride and organic molybdenum. The additive protects the engine against dry starts, reduces friction, and extends the engine's lifespan. It can be used with any engine oil.

Additives

A.M.G. VENOL SPEED BOOSTER BENZIN

Universal gasoline enhancer. The product increases fuel combustion efficiency and cleans the injection system. Regular use extends the lifespan of the injection system.

Item No.	Cap.	Pcs in package
711.250	250ml	25

A.M.G. VENOL SPEED BOOSTER DIESEL

Universal Diesel Enhancer. Improves fuel combustion efficiency and cleans the injection system. Regular use extends the lifespan of the fuel injection system.

Item No.	Cap.	Pcs in package
710.250	250ml	25

A.M.G. VENOL OCTAN BOOSTER

The product increases the octane rating of gasoline and ensures that the engine can reach its full performance potential. Raising the octane number is essential for engines with modified injection and ignition maps, or with mechanical upgrades such as increased boost pressure or compression ratio.

Item No.	Cap.	Pcs in package
636.250	250ml	25

A.M.G. VENOL CETAN BOOSTER

A formula that increases the cetane number of diesel fuel. Improving this parameter enhances engine performance, reduces fuel consumption, and results in quieter operation.

Item No.	Cap.	Pcs in package
638.250	250ml	25

A.M.G. VENOL INJECTION CLEANER BENZIN

Cleans and lubricates the entire petrol injection system. Clean injectors improve fuel atomization, resulting in lower fuel consumption, reduced exhaust smoke, and quieter engine operation. Regular use helps extend engine life. Suitable for engines with both port fuel injection (PFI) and direct fuel injection (GDI) systems.

Item No.	Cap.	Pcs in package
644.250	250ml	25

A.M.G. VENOL INJECTION CLEANER DIESEL

A highly effective formula for cleaning injection systems in diesel engines. It removes carbon deposits from injector nozzles, improving fuel atomization and combustion conditions. Regular use reduces fuel consumption, lowers exhaust smoke, quiets engine operation, and extends the life of the injection system. Suitable for all types of diesel injection systems, including injection pumps, unit injectors, and Common Rail systems.

Item No.	Cap.	Pcs in package
635.250	250ml	25

A.M.G. VENOL DPF BOOSTER

Designed for cleaning particulate filters in all diesel vehicles equipped with both dry and wet DPF systems. The product lowers the soot combustion temperature, which helps to unclog the filter. Regular use every approximately 5,000 kilometers extends the intervals between filter regeneration cycles and reduces oil dilution by fuel.

Item No.	Cap.	Pcs in package
712.250	250ml	25

A.M.G. VENOL ENGINE FLUSH

A product for flushing the engine interior before an oil change. Works immediately upon application. The formula removes carbon deposits and sludge from oil channels, hydraulic lifters, the oil pan, and piston rings. Flushing the engine improves compression and reduces oil consumption. Use before every engine oil change. Suitable for all gasoline and diesel engines.

Item No.	Cap.	Pcs in package
701.250	250ml	25

A.M.G. VENOL FRICTION REDUCER

Engine Oil Additive for Friction Reduction. This product is designed for use in all gasoline and diesel engines, with or without particulate filters. It offers dual action by creating a durable ceramic coating lasting up to 50,000 km, along with an active chemical layer. The formula is based on a specially composed blend of boron nitride and organic molybdenum. The additive protects the engine from dry starts, reduces friction, and extends engine life. Compatible with all types of engine oils.

Item No.	Cap.	Pcs in package
643.250	250ml	25

A.M.G. VENOL ENGINE SEAL

Engine Oil Additive. Restores rubber seals, effectively reducing leaks and oil consumption caused by valve stem seals.

Item No.	Cap.	Pcs in package
639.250	250ml	25

A.M.G. VENOL RADIATOR FLUSH

A product for removing oil deposits and scale from the engine cooling system. Flushing improves the efficiency of the cooling system and the vehicle's interior heating. Use before every coolant change.

Item No.	Cap.	Pcs in package
637.250	250ml	25

A.M.G. VENOL RADIATOR LEAK STOP

This product seals leaks in the radiator, heater core, and hoses. It reacts with air to form a durable sealing layer. The product does not dirty the coolant or reduce the cooling system's efficiency.

Item No.	Cap.	Pcs in package
642.250	250ml	25
